HeroCamper

Ready for new adventures

DESIGNED & ASSEMBLED IN DENMARK

HeroCamper

ROCK SOLID ALL YEAR ROUND

The HeroCamper is built from reinforced fibreglass panels, making it as resistant to wind, water and weather as a fibreglass sailboat.

The fibreglass panels are also highly insulating, keeping down temperatures in hot conditions, while the camper can be kept warm for several days with very little energy.

The HeroCamper has been tested in extreme conditions down to -21°C. In other words, you get a camper that can be used for more than just a trip to the lake in the summertime.

HERO SKYBOX NEW FEATURES

Integrated LED Lighting: Brighten your campsite with built-in LED lights for a cozy, hassle-free glow.

Enhanced Canopy System: Stronger poles ensure a stable canopy, offering ample shade and protection.

New Storage Bags: Keep essentials organized and within reach.

Double-Walled Openings: Enjoy panoramic views and improved ventilation with all-around double-walled openings.

HeroCamper Galileo's signature features Include:

Fiberglass Roof: Durable, weather-resistant protection.

65mm Cold Foam Mattress: Enjoy a restful night's sleep on a plush mattress with two pillows for added comfort.

360-Degree View: Immerse yourself in nature with Galileo's full panoramic view.

HERO SKYBOX GALILEO

Hero Skybox Galileo is a hard shell roof top tent that offers a great sense of space for two adults or even more kids.

Hero Skybox keeps you sheltered and dry – even in the heaviest rain thanks to the hard shell and completely waterproof outer shell.

The Hero Skybox is perfect for camping holidays, weekend trips and base camp for fishing, hunting or any other kind of outdoor activities.

The roof top tent provides extra sleeping facilities for family and friends, festival accommodations or for family visits.

Hero Skybox sets a new standard for solid and comfortable roof-mounted sleeping facilities.
